Summer 2025 Edition

Hello LPA Members! We hope you are all enjoying the Summer. Remember, if you require your water to be turned off and do not know where your homeowner's valve is – or if you do not have one, please notify us and we will turn off the water service to your property. As previously mentioned, service valves in the easement area are the property of LPA and should not be operated by anyone other than LPA water personnel. The water department's emergency number is: (530) 307-1106.
